

How Our Vision Plan Works

What the Vision Plan Covers

The Plan helps you pay for eye care such as your annual eye exam, frames, lenses, and contact lenses.

When You Need Vision Care

1. Find and Use a Vision Care Provider in the EyeMed Network

- Search EyeMed's [online directory](#). (Choose the **Insight Network**.)

OR

- Search for providers on EyeMed Members App, which you can download from the [App Store](#) or [Google Play](#).

2. Provide Your Info at the Provider's Office — No ID Card Needed!

You don't need a vision ID card.

When you visit your EyeMed provider, simply provide your name and date of birth.

If you want an ID card anyway, print one by logging into [eyemed.com](#) (after you set up your EyeMed online account) or access it via the EyeMed Members App.

3. Pay Your Provider

If you use an in-network provider, you'll pay for anything you owe, after EyeMed discounts are applied, at the time of your visit. Regardless of the in-network eye doctor you choose, the Plan pays the same amount based on the [Summary of Benefits](#).

You typically save the most money when you use a vision care provider in the EyeMed network. Network providers contract with EyeMed and agree to charge based on contracted rates with EyeMed.

You typically pay more when you receive care from a provider outside the EyeMed network because you are reimbursed less for an out-of-network provider and not all services are eligible for reimbursement. See the [Summary of Benefits](#) for out-of-network reimbursement rates.

Still not convinced that it pays to use vision care providers in the EyeMed network? [See the next page for plan details.](#)

2022 – 23 Caltech Student Vision

Contacting EyeMed Vision	eyemed.com (866) 800-5457
