Recruiting is your partner for staff hiring. We typically hire close to 500 employees per year, in a variety of roles and departments. Your assigned recruiter will partner with you during all stages of the search process. We look forward to partnering with you on this process.

- Recruitment strategy consultation
- Candidate sourcing and networking
- Help identify diverse candidate pools
- Interviewing Toolkits
- Social Media and Advertising
- Search Committee Essentials
- Job Fair Representation
- Temporary Hires
Section 2: Recruiter’s Role

- Partner with Caltech hiring teams to develop recruitment strategies. Educate teams on employment policies and procedures.
- Support the development of and post new job requisitions using the applicant tracking system, Taleo.
- Build and maintain candidate pipelines and proactively source candidates.
- Screen and interview applicants. Ensure candidates have a successful interview experience.
- Prepare, extend, and negotiate job offers.
- Participate in special projects/recruiting initiatives.
Section 3: Coordinator’s Role

- **Coordinate and schedule** interviews for candidates and hiring managers.
- **Work with recruiters** on managing the candidate process.
- **Assist the team** with posting open positions on various job boards.
- **Facilitate onsite interviews** and ensure a positive candidate experience.
- **Point of contact** for general recruiting related questions (i.e. benefits, comp, etc).
- **Assist new hire** with initial onboarding.
Section 4: Department Services

Developing a Job Description

Job Descriptions are important for many reasons including: articulating and identifying needs for a team, helping define candidate expectations, and ultimately a starting point in performance management. Effective job descriptions help create interview guidelines and allow groups to make informed hiring decisions.

Key objectives:
- Agree on responsibility & scope of position
- Define candidate expectations of role
- Partner with HR to determine best recruiting strategy
- Provide framework for interviewing questions & selection

All job descriptions should include the following components:
- Summary + Job Duties + Basic & Preferred Qualifications

Compensation

Caltech's Compensation Program is designed to meet the needs of a dynamic and unique workforce. This team reviews the overall position scope and key responsibilities and provides a recommended job classification. This is inclusive of market data and internal equity models. They provide market data inclusive of (25th, 50th, 75th percentile) recommendations. Some of the following factors are evaluated when determining job classification:

- Experience
- Training
- Education
- Impact on Institute
- Leadership
- Job Scope

Sourcing

Caltech needs to engage in proactive candidate recruitment to help build talent pipelines. This helps us ensure a diverse and vibrant community. Partner with your recruiter to consider the best ways to identify talent and connect with strong potential candidates. We utilize sources such as LinkedIn to participate in candidate outreach – and connect with those that may not be actively looking. In addition, we can provide recommendations on niche posting sites or groups that may have candidates with similar work experience.

For senior level hires, we can provide strategic sourcing which maps out the needs of your group and define key attributes for the role. Let us help identify potential candidates based on what works best for your team.
**Applicant Tracking System**

Applicant Tracking Platforms are tools used to recruit and onboard employees. We use an applicant tracking system to ensure all job postings, recruitments, candidate selections, and onboarding processes are consistent. In an effort to increase consistency and efficiency, a new system is scheduled to be implemented and go live in Summer 2017. This will integrate recruiting and onboarding tools with Oracle HRIS.

**Candidate Workflow**

We assist hiring managers by conducting phone screens, scheduling interviews, checking references, and extending offers. By conducting phone screens, we are able to expand on a resume and ask questions to determine if it’s best to continue pursuing an applicant. We help provide a holistic view of candidates, which helps ensure the best candidates are presented.

**Interview Guidelines**

Proper candidate selection is essential to meeting a department’s hiring needs. It is important to find a candidate that will be able to connect with the culture and values of the Institute. Our objective as a recruiting team is to help departments prepare for a structured interview, identify job-related behavioral competencies, and create behaviorally anchored interview questions. In reaching such objectives, the department will help present candidates that are well suited for the role.

**Advertising**

Online job advertisement helps provide a larger or more qualified audience for all of our very diverse job openings. Additionally, we have the opportunity to contact candidates who are passive job seekers.

**Search Committees**

Search Committees are mainly utilized on searches for senior level positions. Committees include representatives from recruiting, faculty, staff, undergraduate, and graduate students and can include guests outside of Caltech. Recruiters also provide details on interview guidelines to folks participating in the interview process.

**Agency Employees**

Occasionally, there are needs for temporary staffing on campus. We partner with Hiring Managers in their search for staffing through external Recruiting agencies. We serve as liaisons between the hiring manager and the staffing company. Such service involves reviewing resumes, conducting screenings, setting up interviews, and onboarding temporary hires. Caltech has contracted rate agreements with many of our agencies. Agencies are routinely vetted to ensure we provide quality temporary staffing.
Recruiting will process pre-employment clearances after a verbal offer is made but before a start date is determined.

### Background Screening

The background investigation process is initiated once a candidate has accepted a verbal or written offer for a staff position. This offer will be extended by a member of the Recruiting team. You can find out more about the background investigation on PM 9.

Personnel Memoranda No.9 (Section 4.3)

### COVID Vaccination

Caltech has implemented a mandatory vaccination policy requiring COVID-19 vaccinations for all employees (with Institute-approved exemptions for religious or medical contraindications only). As a condition of employment, employees must submit official COVID-19 vaccine documentation.

Vaccination FAQ website

### Physicals

Physicals may be required for some roles at Caltech. They are primarily administered in a local health clinic near the Caltech campus. The Recruiting team schedules on-site visits for candidates and receives clearance directly from the clinic. For non-local candidates, we work with local medical vendors to complete the physical exam process. Physical requirements are noted within the Basic Qualifications of the job description.

### Visa Assistance

The International Offices are ready to assist international staff after they have officially accepted an offer of employment to the Institute. Each nonimmigrant status has its own requirements and obligations. Maintaining legal status is critical in order to maintain eligibility for employment in the United States.

International Offices

### Remote Work Agreement

Some roles at Caltech may be appropriate for part-time or full-time remote work. Roles that are appropriate for full-time remote work require an approved remote work agreement at the time the employee begins their assignment.

Please inform your recruiter if you anticipate a role involving fulltime remote work.
**Prevention of Unlawful Harassment Training**
California employers are required to provide prevention of unlawful harassment training to all employees. New hires are required to complete the training within their first two weeks.

**Benefits Orientation**
Benefit Orientation is a bi-weekly virtual meeting on Wednesdays to go over health care benefits and retirement plan. All benefit-eligible staff members will be invited to attend the virtual meeting once they start at Caltech.

**Employee Guide**
The Staff Guide contains information and resources to support a new hire.

**Begin@Caltech Meeting**
All new hires will virtually meet with a Recruiting Coordinator for a high-level campus overview at the Begin@Caltech meeting. These meetings are scheduled for the employee’s first day and are typically 30 minutes.

**Mandated Reporter Training**
If a new hire is designated as a mandated reporter, it is required for the new hire to complete the mandated reporter agreement during the onboarding process and the “Protect Youth” training.
Section 7 - Frequently Asked Questions

When will my new employee’s ID be ready?

Employee IDs are created by the Caltech card office. New hires must share a photo with recruiting in order for the ID card to be created.

Employees can pick up their ID card at the Caltech bookstore during store business hours.

When will I know my new employee’s Caltech email address?

Caltech email addresses for employees are created after the employee file has been exported to Oracle. You can reach out to Recruiting or IMSS to obtain your new hire's Caltech email address 48 hours after an offer letter has been created. The employee should not be checking their Caltech email until their first day.

When will I receive my new employee’s UID?

Once your employee's offer letter is approved and the assignment is exported to Oracle the Hiring Manager listed on the requisition will receive an email with the subject line: Congratulations on your new hire! Please note if you are not listed as the hiring manager on the requisition you may ask the person listed or the Recruiting team may also share the number once generated.

When will my new hire check-in with HR?

Recruiting will reach out to your new hire directly before their start date to schedule a 30 minute check-in, called Begin@Caltech. Check-ins occur on the employee’s first day. If there is a preferred time for check-in please contact your Recruiter so we may make accommodations.

When will my new employee receive their offer letter?

Offer letters are processed once we have confirmed a start date. The start date will be confirmed after all pre-employment clearances have been completed.

Promoting jobs on LinkedIn

LinkedIn job postings can increase the quality of your candidate pool. The cost is $450 for 30 day posting. Please reach out to your recruiter if you would like to utilize LinkedIn job postings.

Meet Caltech

Our Meet Caltech social media program is intended to introduce new hires to Caltech on Instagram and LinkedIn, and to highlight the variety of roles on campus.
